

Pneumothorax Detection Using Chest X-Ray Images | *Python, Pytorch* | **Code**

- Machine Learning project to detect pneumothorax using chest x-ray image
- Google Colaboratory was used to experiment with different Deep Learning architectures
- ResNet, EfficientNet and MaxViT architectures were explored

TECHNICAL SKILLS

Languages: C/C++, Java, Python, JavaScript, TypeScript, HTML

Frameworks and Database: ReactJS, ExpressJS, Spring Boot, Django, Flask, MySQL, PostgreSQL

Developer & Documentation Tools: Git & Github, VS Code, L^AT_EX, Google Colab

AI-Assisted Development: Regular use of ChatGPT, Cursor, and Claude Code for code generation, debugging, refactoring, and rapid prototyping; experienced with agentic workflows, multi-step planning, and iterative problem decomposition
